[SERVICES]

WEB DEVELOPMENT

Our company has been in the web development business for **over a decade** and we have done web development for **well-known** establishments. See page 7 for examples.

IT SUPPORT SERVICES

We provide IT services on a **retainer and ad-hoc basis**. This service is also available as an **insourcing option**, to ensure that you have an IT technician at your establishment throughout the year. Our company also provides **critical after hour support** to help ensure that your business is always operating productively.

INSOURCING

Combining the benefits of outsourcing with the focus and **dedication** of having full-time employees. We place IT, design and web development staff in your business and **manage them on your behalf**. For smaller organizations we offer **retainer packages** at a reduced hourly rate. This reduces your employment costs, gives you access to more than one employee and no need to look for temps or replacements when they are on leave.

PHOTOGRAPHY

The first step to an incredible web & graphic design is great photos. We trust **Vivente** Photography to deliver photos of the **highest standard**. [Contact barbara@tceg.co.za](mailto:barbara@tceg.co.za) for more information.

OFFICE AUTOMATION

We have access to a wide variety of brands which means we can tailor the best technology from a wider base of brands while **saving you costs**. Some of the brands we offer are **HP, Lexmark, Canon, Ricoh, Samsung**.

[SERVICES }

DIGITAL MARKETING

Our company can assist your marketing department with **search engine optimization** (SEO), **pay per click** and **social media marketing**, in order to **boost your brand awareness** and sales.

GRAPHIC DESIGN

Whether you already have a strong brand image that has been developed by fellow brand agencies, we can offer you design services at **competitive rates** by following strict guidelines that have already been developed priorly or we can create your own **unique** and **fresh brand** identity to suit the needs of your business.

CCTV & WIFI - PROJECTS & MAINTENANCE

We have the expertise to maintain and install small to large **wifi** and **CCTV networks**. Remote and on-site maintenance ensure that our technicians are on standby to assist with you problems **fast and efficiently**.

TECHNOLOGY PROCUREMENT

We are registered with various wholesalers where we buy IT equipment at wholesale prices and provide these products to our customers at a **significant discount**.

HUMAN RESOURCE OPTIMIZATION

Sensory Intelligence is advanced Nero-Science research applied to human resources, office layouts and recruitment to **increase staff efficiency**, work flow efficiency and **reduce staff turnover**.
